Glassware V4.0

- Automated Pricing
- I.G. & Lami Configurators
- ANSI Barcoded Labels
- Pooled Inventory
- Costing & Real-Time Margins
- Automated Shipping Paperwork
- Accounting Bridges
- Optimization

Glassware V4.0 from Simplicity Computer Solutions is a specialized end-to-end Enterprise Resource Planning (ERP) solution for the flat glass manufacturing & commercial glazing community, specifically glass fabricators, glass distributors and glazing contractors.

Glassware V4.0 is an industry proven, cost effective, highly configurable, yet simple-to-use glass-processing software system which is widely recognized as one of the industry's most powerful and comprehensive business management software packages.

User-friendly Glassware V4.0 is a completely scalable solution capable of running any size or type of operation from the largest tempering fabricators with multiple locations, to modest fabrication plants and start-up facilities. The modular design allows customers to purchase only those modules which they require to meet the needs of their operations.

Established in 1995, Canadian based Simplicity Computer Solutions understands the tremendous importance of providing the highest quality technical support to its customers and their employees. With a combined total of over 100 years of glass processing experience; Simplicity Computer Solutions knows the industry and speaks the language of glass. Celebrating more than 12 years of business, Glassware business management software can be found streamlining operations, increasing productivity and boosting profits in leading flat glass companies across North America.

features

Glassware V4.0

Core System

Customer Management & Marketing Tool
with mass email and faxing

Order Entry & Quotation/Estimate Management System

Automated Pricing System - Configurable Pricing Engine
capable of handling any pricing model

Customer Job Tracker and Quote Replicator

Shipping/Logistics Management System

Invoicing System

Energy Surcharge - Handles any model
- weight, SQFT, SQFT by thickness, % of sale etc

Tax Collection - Configurable to handle
unlimited number of taxes, and tax models

Reporting System - Comes with 50
standard reports & custom adhoc reporting capability

Order Entry & Quotation Add-On's

Insulated Glass (I.G.)
Unit Configurator (unlimited layers)

Laminated (Lami) Glass Configurator (unlimited layers)

Export of transactions to popular Financial Packages
(QuickBooks, AccPac, Simply Accounting & more)

A/R Aging Accounting interface

AutoCAD Integration
- Attachment of AutoCAD files to work orders

Geometrical Shape Visualization
(Support custom catalogues: Lisec,
PMC, A&W, Optyway & More!)

Label & Bar Code printing

EDI & Secure customer web based order entry

Optimization Bridge - Integration with cutting optimizers
(A&W, PMC, Optyway, Perfect Cut + Others)

Digital Order Confirmation

Pre-Payment Management

Logistics

Shop Floor Data Collection "Lite"
(Included in Production Shop Floor Data Collection)

Shipping/Logistics Management

RF Load Staging

Load tender, email notification

Macro Rack Management

Purchasing

Purchasing System

Order/Quote Management

Glass Inventory and Receipt Management

Production Scheduling

A/P Aging Accounting Interface
(QuickBooks, AccPac, Simply Accounting & Custom)

Fully integrated with order entry
(i.e. Auto-purchasing Demand)

Label printing with barcodes by schedule

Rack tracking

Harp rack organization

Advanced Scheduling with capacity planning

Multi-plant Replicator and Viewer

Capacity Based Due Date Suggestor

Production Management

Shop Floor Data Collection

Enhanced Shop Floor Production Tracking (RF & RFID)

Work Order / Label Tracking

Integration with various CNC equipment

Specification sheet system

Inventory Management

Inventory System serialized or pooled

Inventory Management Transaction Suite

Raw, WIP & Finished Goods inventory viewing

Glazing

Virtual Job Folder, Job Tracking,
Budgets, Progress Billing & More!

Simplicity
Computer Solutions Inc.

www.simplicitycs.com

Simplicity has a reputation for its positive technical service. The company's annual maintenance package is all-inclusive which includes telephone and email technical support (usually same day) and version upgrades. This means you never need to repurchase the software. Simplicity has worked hard to build its' Technical Support team, constantly seeking continuous improvements to the company's services and its day-to-day user support.

"We were looking to automate and the software really has done what we were expecting it to do.
We have had the most dramatic effect with throughput through the plant. Ever since we've put it in, we've been operating at a breakneck growth pace. Simplicity has helped us by giving us the extra capacity.
We spoke the same language, they are familiar with the fabrication and characteristics of glass. They aren't trying to take some generic software package and adapt it to work with glass. Our growth wouldn't have been possible without the change."
